Data Policy

This document tells you about how we use member's data.
Feel free to print and keep it

What data do we collect?

At team registration during March, we collect the following: -

- Details about the venue including licensee (All in the public domain)
- Captain's name, contact telephone & email address.
- Player first name, last name and gender.

How do we use the data?

- Venue data is for location, maps and communication.
- Captain's data is for direct communication purposes.
- Player names and gender is for score tables.

Where is the data stored?

On the web server and the Secretary's PC.

Who can view the data?

At present anyone who visits the web site.

Is any of this data shared?

Only the location of the venues (lat/long) for Google maps software.

Captain's permission

When completing the web registration form, the captain opts to tick two boxes to indicate permission for his telephone number and email address to be displayed.
If the box(es) are not ticked, then the appropriate data is not displayed on the web site but is still accessible to the Secretary for communication purposes.
This is referred to as an 'opt-in' or 'consent' policy.

Your Rights

You have the following rights:

- To be removed from our database
- To see what information is stored about you.
- To have your history deleted.
- To have your details amended.

Security

Data is stored on the web host's servers and the Secretary's PC, which have the latest software updates and patches and are encrypted and password protected.

Data Protection Officer

In the Bampton Aunt Sally Association, the data responsibility falls to the Secretary (contact details below).
